High-Temperature Resistant Classic Waterproof Protective Case

MEIJIA High-Temperature Resistant Classic Waterproof Protective Case is a hot-selling case in China, which is made of premium ABS material. The case has features of elasticity, chemical resistance, high-temperature resistance, electrical insulation, and high wear resistance, etc. Those features make MEIJIA high-temperature resistant classic waterproof protective case, made in China, available to provide great protection for your delicate electronics and other equipment that you want to keep safe. We are looking forward to establishing a long-term relationship with you.

MEIJIA High-Temperature Resistant Classic Waterproof Protective Case is a waterproof and dustproof portable protective case which is made in China. The high-temperature resistant classic waterproof protective case are made of premium ABS material and made with Polyethylene (PET) in injection molded construction. Whether you're caught in rain or at sea, MEIJIA case can always protect your valuables. The color of MEIJIA high-temperature resistant classic waterproof protective case is elegant black, which could meet the aesthetic needs of most users in the world.

MEIJIA high-temperature resistant classic waterproof protective case Introduction
Model: MJ-5024/1300-10.62'

MEIJIA, a prestigious manufacturer and supplier in China, exports quality high-temperature resistant classic waterproof protective case all over the world, and has built a reputation. The factory covers an area of 110,000 square meters, and has 900 workers and 160 injection molding machines of 800g-10000g. The annual sales have reached 30 million US dollars. Having dozens of technical engineers, technical backbones, new product research capabilities and market competitiveness, the production technology of MEIJIA is extremely strong, and MEIJIA has ISO9001, GS quality system certification.

MEIJIA High-Temperature Resistant Classic Waterproof Protective Case, one of the hot-sales in MEIJIA, can protect precision instruments in all directions, and resist high temperature. The waterproof and shockproof have reached IP67. The materials of IP67 classic waterproof protective case is modified PP engineering plastics, which is elastic and tough, and has the properties of flame retardancy, strength, impact resistance, etc. The internal

shock-absorbing lining can also be customized according to the appearance of the precision instrument. The lining of the instrument is fully wrapped in which the instrument is stored, which can ensure the safety of the precision instrument even if it falls.

MEIJIA high-temperature resistant classic waterproof protective case Parameter (Specification)

Messages

- 10.62' plastic portable toolbox
- one plastic handle
- two plastic buckles in front of box
- Water Proof and Shock Proof
- Outside Size: 270x246x174mm
- Inside Size: 233x178x155m
- Cover Inner Depth: 30mm
- Bottom Inner Depth: 130mm
- Waterproof Level: IP67
- Weight: 1.46kg

MEIJIA high-temperature resistant classic waterproof protective case Feature And Application

MEIJIA high-temperature resistant classic waterproof protective case has functional and practical features such as reliable waterproof, shockproof, anti-riot, was perfectly fit the use of camera, watch, pistol, drone, computer, GoPro, scope, lens, and other instruments and valuables. Quality MEIJIA high-temperature resistant classic waterproof protective case is available to be used in the relief operations for natural disasters, troops, medical rescue, public security fire protection, machinery manufacturing, and so on. It can be widely used in our lives, without limitation of the country.

Note: Products with electrical plugs are designed for use in the US. Outlets and voltage differ internationally and this product may require an adapter or converter for use in your destination. Please check compatibility before purchasing.

MEIJIA high-temperature resistant classic waterproof protective case Details.

Sturdy packaging provides solid protection for the contents. MEIJIA high-temperature resistant classic waterproof protective case provides not only solid and full sides protection, but also smooth user experience from an ergonomic point of view.

R angle

The edge of the box mouth is designed with an inverted R angle, which is beautiful and smooth, so that you will not be injured by the angle.

The Security Keyhole

Anti-shear and anti-pry, and can be locked to ensure the safety of the equipments in the box. Beautiful and functional injection molded, durable use with the solide construction.

High Quality Auto Exhaust Valve

Solve the problem that the box can not be opened or deformation due to the difference of internal and external air pressure and keep water molecules out.

Portable Handle Design

Easy to go with our portable handle design. Beautiful and Functional Injection Molded. Durable use with the solid construction.

Easy To Open With Latches Design

Smarter and easier to open than traditional cases. Start the release and offers plenty of leverage to open with a light pull in just seconds.
